Stockholm – the birthplace of music tech innovations

Stockholm is famous for ranking among the world's top exporters of music as well as its vibrant tech scene. But fewer people know that the Swedish capital is the number-one hub for the music tech industry. Music tech is where music and technology connect, for producing and consuming music.

Stockholm has been good at merging our leading music industry with the tech scene

Ever since the 90s, a lot of the world's biggest pop acts come to Stockholm to produce their music in cooperation with the city's many music creators. Combined with this, Stockholm, after Silicon Valley, has produced the most tech unicorns per capita. These two ingredients have set the foundation and development for a whole new industry of music and we want the world to experience it.

In a video narrated by critically acclaimed artist Mapei you can discover 14 important birthplaces for contemporary music and Music tech around the capital of Scandinavia, Stockholm. Music and technology are entwined together and created everywhere here, the city is a melting pot for music and tech and that's why we wanted to visually show some of those places.
